

Subcontractor Awareness Seminar

Subcontractor Awareness Seminar Attendees include but are not limited to: Grading personnel, as well as grading and earthmoving equipment operators; Irrigation system personnel (residence, commercial and industrial sites) Landscape personnel; Utility personnel (excludes entities regulated by the PSC or FERC, and other entities listed in O.C.G.A. 12-7-17(10), if within a Common Development; Wastewater personnel installing on-site systems (includes septic tank excavation and drain fields); Well drilling personnel (includes directional boring equipment operators) Plumbers and electricians (will require certification if conducting a land disturbing activity within a permitted project site); Best management practice installation personnel Other personnel involved in land disturbing activities acting as a contractor or subcontractor.

The Subcontractor Awareness Seminar is a two hour seminar with no exam that is designed to give individuals working in a subcontractor capacity an overview of: Erosion and sedimentation; The impacts erosion and sedimentation have on the environment; Best Management Practices (BMPS) both vegetative and structural; Laws governing erosion and sedimentation. The Subcontractor Awareness seminar is required for individuals involved in land disturbing activities working in a subcontractor capacity under a primary, secondary or tertiary permittee. It is important to note that a subcontractor certification does NOT qualify an individual to perform the duties of a "qualified" or "certified person/personnel. If you are performing such duties, a Level IA certification is required. Individuals working in a subcontractor capacity have until December 31, 2007 to obtain subcontractor certification.

More information about the Subcontractor Awareness Seminar can be found at www.gaswcc.org.
